The exhibition showcases botanically themed works in watercolor, oil and acrylic paintings, pastels, and illustrations. Classes are open to all levels, from beginner to advanced students. Access to the exhibition and sale is included in Garden admission.

KIDWAY

Cycad Circle

Join us as we celebrate Fairchild's Growing Beyond Earth project conducted in partnership with NASA. Learn about this innovative research project where we are mobilizing our huge network of middle and high school students from the Fairchild Challenge to assist NASA scientists in testing crop options for growth on the International Space Station and beyond. Assisted by students from Fairchild's own botany magnet school, BioTECH at Richmond, kids will have the chance to contribute to our research by planning and caring for species currently being tested. Fun for the whole family!
