

**Scurlock *Exotic Trees & Shrubs of the Florida Keys*
Index to slides in FTG Archives File E-2**

GENUS SPECIES SLIDE # SLEEVE #.

This index of the slides from the Scurlock collection was prepared by Moyna Prince in January 1993. It is based on information from Scurlock's notes and his index to slides; re-edited and expanded to include miscellaneous slides on December, 2003 by Nancy Korber.

Most of the slides are arranged by family name. At the end of the file are additional slides which are not included in the family name series. They are arranged somewhat alphabetically by Genus name.

The slides included in this index are filed in the Fairchild Tropical Botanic Garden Archives, File E-2.
